The Autobiography
LERN 81 • Lab Work • Professor Tadeja

Write an autobiography. An autobiography is a story written by you about yourself. You should write at least two pages worth. Try to make your paper interesting to read by saying something interesting about yourself. You may want to focus in on the challenges or obstacles you've faced to get this far in life.

Your job is to practice the art of writing so don't worry too much about grammar or spelling. I will help you along the way. You may write your paper using black ink. But I prefer that you type your paper instead. On the heading of your paper, you should put your first and last name and your social security number on top. You must also put my name and the course number as well. Your paper is completely confidential and only I will read what you have written.

Since this is a lab assignment, you will need to complete your work in the learning lab. You will submit this work as your lab near the end of the semester. It is **STRONGLY** recommended that you do not wait until then to complete this work. You should schedule some time to visit with me in the lab so I can check on your progress and give you feedback on how to improve your writing. I am willing to help during lab time so be sure to see me if you have questions. Good luck everyone!
