Compare and Contrast Paper

LERN 81 • Lab Work • Professor Tadeja

Objective: Find two things you can compare and write about it. Consider two simple things like guys vs. girls; fans vs. air conditioners; cars vs. motorcycles; English vs. math; there are SO many possibilities!

Reasoning: Your job is to practice the art of writing. You may write your paper using black ink. But I prefer that you type your paper instead. Your paper needs to be at least two pages long, although writing more will not penalize you and it might help you better describe the two things you are trying to compare if you decide to write more than the minimum two pages. If you do type out your paper, it should be double-spaced done on white paper with one-inch margins on all sides. On the heading of your paper, you should put your first and last name and your social security number on top. You must also put my name and the course number as well.

Your paper is completely confidential and only I will read what you have written. This exercise is not designed to be an entertainment piece for me. But this will allow me a better chance to get to know something more about you. It should also pose a way for you to get a chance to see how you've grown too...hopefully.

Receivable: Since this is a lab assignment, you will need to complete your work in the learning lab. You will submit this work as your lab work (or essay) near the end of the semester. You will submit your work to me on the next to the last day of class as stated in the syllabus so be sure to keep all work until then. I am willing to help during lab time so be sure to see me if you have questions. Good luck everyone!
